

APOLLO LUX LED

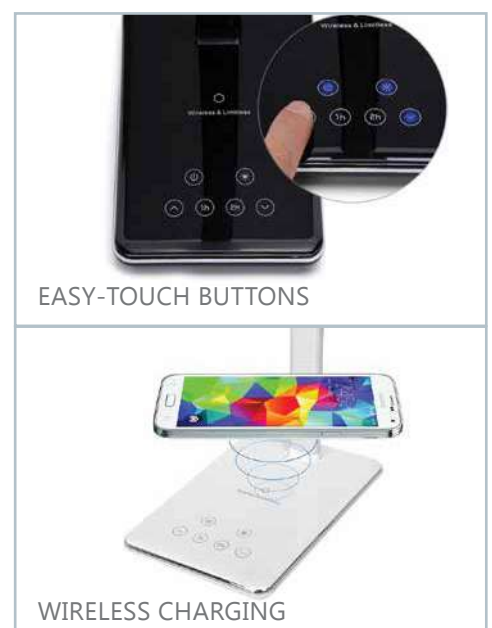

HIGH PERFORMANCE MEETS EXQUISITE DESIGN

**Conveniently place smart device on
“wireless & limitless” logo for instant charging or connect to the
handy USB port and charge two devices simultaneously.**

Unlike halogen lights, the Apollo has an LED light giving you an extensive dimmable range so you have full control over the brightness of the light. LED lights are also energy efficient, using a fraction of the energy compared to halogen lamps and last much longer.

This high-performing LED lamp also features six easy-touch buttons for effortless control, adjustable colour temperature and soft light to protect your eyes, a USB charging port, backed by a two-year warranty.

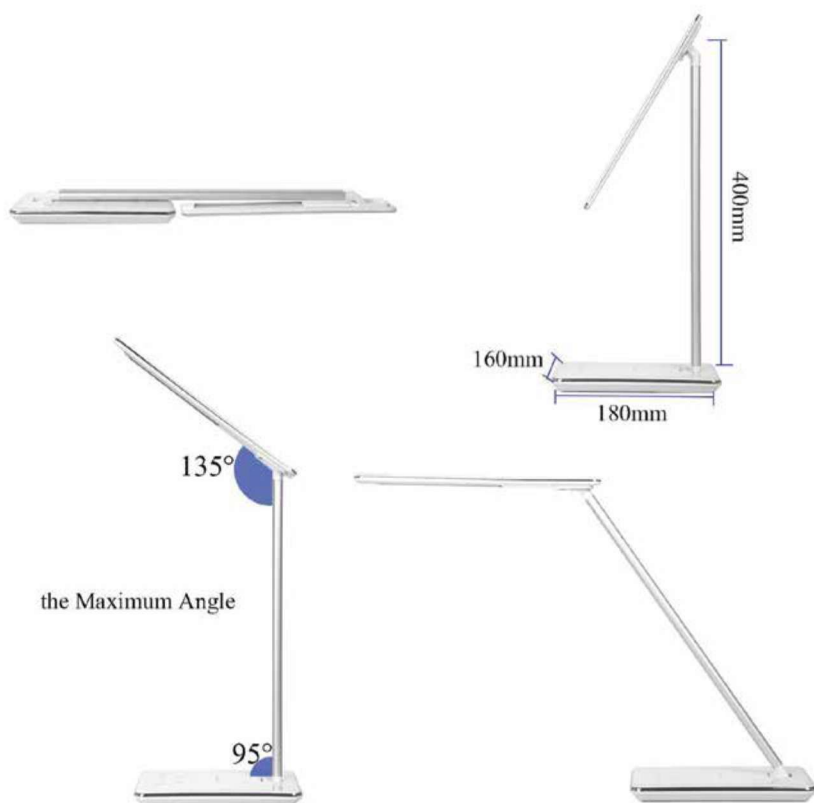

Whether it's reading, studying or working at the office, the Apollo LUX light will help with productivity while keeping your device powered thanks to long lasting light, wireless device charging and an everlasting design.

EASY-TOUCH BUTTONS
